OUR PROJECT

2015

ABOUT ALFA FORWARDING

Alfa Forwarding has a long time history in forwarding industry on the Polish market. The company has been incorporated in 1993 and since then successfully developed its scope of services working with customers and agents all over the world. Over 50% of our operations hold FIATA diploma in freight forwarding. We offer all kind of transportation mode to our customers, handling a single package up to elements over 100 tons, from a dedicated small VAN to vessel charters. Alfa Forwarding is a member of Polish International Freight Forwarders Association, Polish – Canadian Chamber of Commerce, IFLN and SCN networks.

SELECTED PROJECTS

The project include the design and schedule of the movement of the bridge, divided into 29 pieces, each app. 40 tons. We used road freight and short sea ro-ro service to move the parts from Poland to Scandinavia. Special trailers were used and customs services were provided as well as arrangements of special permits and road selection.
